Optional: Can get 20 precut wedges from me for \$15 including shipping. You will still need to buy background fabric for pillow front and back. Back of pillow can be different than the front. Buy 1 ½ yards if using same on front and back. I sometimes used a fat quarter for the front and add 2 1/2" border to make 22" top for pillow. Also you will need to rob your stash for windows and doors.

If cutting your own fabrics, it would be helpful if your wedges were cut out prior to class. All 20 wedges should be cut 7 ½ inches tall. *It's important to be accurate in cutting wedges.
